## Land Resources Program Manager

The Land Resources Program Manager oversees the SRMT Environment Division's Land Resources Program, which includes the planning, directing, coordination, and implementation of land-based restoration efforts within Akwesasne and cultural-use areas. The Land Resources Program exists to promote the sustainable protection and enhancement of land resources, while working to maintain the reciprocal relationship that exists between the land and the Akwesasne community with a focus on forestry, invasive terrestrial species, integrated pest management, and operation of a Native Plant Nursery. The manager supervises staff, resolves technical and administrative issues, develops program goals and procedures, administers regulatory authority, and supports the priorities of the Environment Division.
